

Seven Thomsen,

IT Specialist & Designer

About

Versatile professional bridging the gap between IT infrastructure and creative design. With a degree in IT and a background in digital media, I specialize in streamlining complex technical workflows and delivering high-stakes event production. Proven track record of optimizing systems and creating engaging user experiences through a blend of analytical troubleshooting and innovative design.

Experience

Tier 2 Service Desk Analyst

Frontline Managed Services ↗

February 2026 – Present

Tier 1 | June 2025 – February 2026

Creve Coeur, MO

- Facilitated high-volume technical support as the primary point of contact for multiple legal organizations, ensuring rapid response times and adherence to strict SLAs.
- Diagnosed and resolved complex software and hardware issues within specialized legal environments, documenting solutions to streamline future troubleshooting.

Event Manager

SZN Productions

August 2017 – Present

Across the United States

- Engineered and executed 350+ large-scale events, overseeing end-to-end technical production, network stability, and live broadcast infrastructure.
- Optimized live-stream workflows by developing custom graphic overlays and automated production tools, resulting in a more professional and engaging viewer experience.

Graphic Designer

Freelance

September 2018 – Present

Remote

- Managed over 350 projects, coordinating with clients and event staff to deliver high-quality visuals.
- Designed custom graphics, enhancing event professionalism and audience engagement across livestreams, marketing, and social media.

IT Support Specialist

Missouri State University

December 2020 – December 2023

Springfield, MO

- Maintained high uptime for the University Game Center's hardware and networking infrastructure, supporting daily operations for a high-traffic student hub.
- Provided troubleshooting support for computers and printers, ensuring smooth daily operations and quick issue resolution.
