Experience

Tier 2 Service Desk Analyst

Frontline Managed Services ↗ • Creve Coeur, MO

February 2026 – Present
Tier 1 | June 2025 – February 2026

- Leverage AI-native workflows within ServiceNow (HELIX) to accelerate incident triage, case documentation, and rapid troubleshooting across multiple legal organizations.
- Diagnose and resolve complex Tier 2 software and hardware escalations within specialized legal environments, ensuring high-quality resolutions and strict SLA adherence.

Co-Founder (Brand & Tech)

The Nexus ↗ • Hybrid

December 2025 – Present

- Direct end-to-end technical infrastructure, digital branding, and software architecture to power a competitive intercollegiate esports league.
- Lead broadcast operations and digital product development, creating automated tournament tools, match systems, and community platforms.

Event Manager & Graphic Designer

SZN Productions • Across the United States

August 2017 – Present

- Engineered and executed technical production for 350+ live events across the U.S.—including premier stages like EVO—overseeing network stability, multi-camera AV feeds, and broadcast reliability.
- Produced 1,000+ custom digital assets and branding packages for 50+ organizations, delivering live broadcast HUDs, motion graphics, and marketing campaigns.

IT Support Specialist

Missouri State University • Springfield, MO

December 2020 – December 2023

- Maintained high uptime for the University Game Center's hardware and networking infrastructure, supporting daily operations for a high-traffic student hub.
- Provided troubleshooting support for computers and printers, ensuring smooth daily operations and quick issue resolution.
